EDUCATION

Seoul National University, Seoul, Korea

Ph.D. Candidate in Department of Computer Science and Engineering — Mar 2014 - Present
Advisor: Prof. Byung-Gon Chun

B.S. in Department of Computer Science and Engineering — Mar 2007 - Feb 2014

WORK EXPERIENCE

Seoul National University, Seoul, Korea — Mar 2014 - Present
Research Assistant, Software Platform Lab
I have studied and built large-scale data processing systems, recently focusing on Machine Learning (ML) training and inference workloads. I engaged in open source activities in the Apache Software Foundation.

Microsoft, Redmond, WA, USA — Jun 2017 - Sep 2017
Research Intern, Cloud and Information Services Lab (CISL)
I designed and built a prediction serving system for ML pipelines (named PRETZEL) and evaluate the system with production-scale workloads. This research was published in OSDI '18.

Microsoft Research Asia, Beijing, China — Sep 2015 - Feb 2016
Research Intern, Systems Research Group
I participated in the Pado project, a data processing system for handling transient resources (EuroSys '17).

Apache REEF — Sep 2014 - Present
Project Management Committee (PMC)
I am one of the committee members of the Apache REEF. I worked as the release manager of REEF v0.14.
